A MAN ON THE MOVE

Robin D. Williams can be seen "in performance"
in Theatres, Auditoriums and Fine Arts Centers.

ROBIN D. WILLIAMS is one of the top filmmakers of America today and a most dynamic public speaker. His film programs have been entertaining audiences in the United States and Canada since 1967 and he has been a regular on the National Geographic Society's Film Lecture Series since 1972. He is noted for his effervescent stage presence and clarity of voice.

He has sailed the English Channel and the French Canal System, traced The Roman Empire throughout the Mediterranean Sea on a converted Scottish trawler, tracked St. Paul's journeys through Asia, followed Christopher Columbus from Genoa to the New World, skillfully recreated Mozart's trip through Italy, replicated Lindbergh's flight to Paris, retraced Lewis & Clark from their boyhood homes in Virginia to the mouth of the Columbia River, and filmed the story of St. John and the Seven Churches. He methodically searched throughout Turkey and unveiled dozens of Biblical Treasures.

And now the good news! Robin filmed these true account stories and shares them with audiences across America.
